

**Avoid System and Data Loss with
HERO Secure Backup Client**

**HEROware-Your "All-In-One"
Compliant Solution for Data Protection**

HERO Secure Backup Client provides fast and reliable disaster recovery, data protection and system migration to get desktops, laptops and tablets online as quickly as possible, including bare metal recovery to the same system, dissimilar hardware or to and from virtual environments. Protect everything on your desktops and laptops: operating systems, applications like Microsoft™ Office, configuration and personal settings and your data.

HERO Secure Backup Client allows you to consolidate point-in-time backup images on a daily, weekly and monthly basis for simplified management. Automatic verification and re-verification tools ensure your backups are in a known good state when recovery is necessary.

HERO Secure Backup Client provides the following benefits:

- Intuitive browser based user interface makes backups & restores easy for end users.
- Every possible scheduling option including Continuous Data Protection.

- Automatically detect changes in files and/or directories and backs up accordingly.
- Mobile users' (esp. tablets and laptops) data can be backed up immediately as they connect to the PC/Mac (tablets) or network.
- Powerful reporting that encompasses configurable email reporting for Client and Server.
- Intelli-Delta technology for Incremental backups. Backs up only changes in files and not the entire file every time.
- Support for large file backups including 'continue where you left off' feature.
- Robust data encryption with up to 448 bit Military strength protection - based on the blowfish algorithm.
- Support for Volume Shadow Copy for backing up Open Files in Windows XP/2003/Vista/Win7.
- Support for backing up multiple versions of the same file with time stamps for easy restores. HERO Secure Backup Client also supports additional full backups.
